**Docket Number: R3-15-NOV-RCRA-029**

Dear Mr. Scarborough,

On July 20, 2015, the U.S. Environmental Protection Agency, Region III (“EPA”) issued a Notice of Violation (“NOV”) to AZZ Galvanizing Services – Bristol (“AZZ” or “Facility”) in regards to the Compliance Evaluation Inspection (“CEI”) that occurred on August 5, 2014. The NOV addressed an incomplete Facility Contingency Plan (“CP”).

Upon receiving and reviewing documentation sent on August 3, 2015 through email by Jason Pence, Environmental Health and Safety Director of the Facility, it has been determined that AZZ was not in violation of the CP provisions at the time of inspection. The documentation showed that the Facility’s CP was updated in April of 2014 and contained all required elements to of 40 CFR 265 Subpart D at that time.

Thank you for following up with the EPA in a timely manner after receiving the NOV and providing documentation regarding the Facility’s CP. The EPA is hereby withdrawing NOV: R3-15-NOV-RCRA-029.

If you have any questions or concerns, please feel free to contact the EPA. Any response to this matter can be addressed to:
